7/12/2025

As per the SRS, this phase has implemented the course registration and view grades functionalities for students, student grading and view registered students for professors.

Student and professor login functionalities with the SQLite database are now functional.

All the necessary HTML files have been implemented to serve this phase's functional requirements, leaving CSS styling for the upcoming phase.

To be implemented functionalities are Drop course, View registered courses, Add/Remove courses, Modify account and Assign professor to course.
